PETITION TO ENTER DRAWINGS

Honorable Commissioner of Patents and Trademarks  
Washington, D.C. 20231

**RECEIVED****MAY 01 2002****OFFICE OF PETITIONS**

Sir:

Applicant has filed the above-referenced application on May 24, 2001. The application as filed included a specification of 50 pages and 9 sheets of drawings. Applicant received a return postcard from the Patent Office that did not indicate any portion of the filing was missing (see copy of return postcard enclosed). Applicant received a Missing Parts dated July 24, 2001 indicating that correction to the drawings is required. On September 12, 2002, applicant submitted corrected drawings for FIGS. 1-4. The Patent Office also indicated that FIGS. 5-9 appeared to be missing. Applicant hereby submits copies of FIGS. 5-9 as originally filed.

Applicant respectfully requests that FIGS. 5-9 be entered in the above-referenced application as these drawings were part of the original filing. Furthermore, FIGS. 5-9 are referred to and described in great detail in the

specification as filed and therefore these drawings do not add new matter. Accordingly, Applicant respectfully requests that FIGS. 5-9 be entered in this case. If, however, the entry of FIGS. 5-9 causes the original May 24, 2001 filing date to be changed, Applicants respectfully requests that FIGS. 5-9 not be entered.

If it is determined that for some reason entry of FIGS. 5-9 is not possible, it is requested that the undersigned attorney at the number listed below be called with a view towards resolving any outstanding issues.

Respectfully submitted,

Jean-Marc Zimmerman  
Attorney for Applicant  
Zimmerman & Levi, L.L.P.

Reuben Flis  
Friday, August 4, 2000**Past Message Priority**

When people send you a message through JumpKnowledge, they usually have to specify how relevant and time critical the message is for you. Because there is no exact answer for that, the person chooses one of the choices in the "How sure?" column. The "Not chosen" points are assigned to messages that people did not specify relevant and time critical.

Below are the point values that are associated to each "How sure?" value. You can change the point values as long as you keep it logical. For example, *Probably yes* should always have more points than *Maybe*. The points below reflect that for most people a *past* messages (that is relevant) is usually more important than a published message. *Late points* are added each additional day that you don't read time-critical messages that you received. More information and examples...

How sure?	Relevant	Time Critical	
	Points	Points	Late points
Definitely yes	65	35	10
Probably yes	45	25	10
Maybe	25	15	5
Probably not	0	0	0
Not chosen	20		0

You can change the Category and Points for each person. When you are finished making changes, click "Save changes". If you don't want to save the changes you made, click "Cancel change" instead.

You should assign more points to people that pass you consistently important messages and you should assign negative points to people that pass you consistently irrelevant or unimportant messages.

Use categories to help you organize your address book so you can easily select the right people to pass messages to. Choose "<New>" to add a new category.

People in your address book that are no longer notified through the email address you entered for them have "alternate" listed next to the email address. What is this?
